4.21 - 4.23	Business/Technical Process Rules	Subsequent Report of Injury (SROI) - Alphabetically	<div>Item # 9 Number of Permanent Impairments should be removed and renumber subsequent entires (see below)</div> <div>B. NARRATIVE FOR CLAIMS SEGMENT: a. Number of occurrences cannot exceed 10 and must equal the Number of Narrative For Claim (DN0431). b. This segment can only be required on MTC NT.</div> <div>C. OTHER BENEFITS SEGMENT: a. Number of occurrences cannot exceed 25 and must equal the Number of Other Benefits (DN0282). b. Only one Other Benefits segment per Other Benefit Type Code. The applicable Other Benefit Type Code (DN0216) must be included when this segment is present in the transaction. c. This segment should always be included in each SROI transaction when Other Benefit Type Codes described in the Value Table and Population Restrictions tab of the jurisdiction's Edit Matrix have been paid on the claim, regardless of whether they are also reported in the Payments segment. The exception to this would be that if all "other benefits" checks have been returned/cancelled/voided and Recovery Code 300 is present, an Other Benefits segment(s) may not be present on the transaction. This segment is populated with the current values at the time of transmission. Other Benefit Type Codes that are not reflected on the jurisdiction's Edit Matrix as being collected but are valid by jurisdiction statute may still be submitted, but must be ignored by the jurisdiction. d. When a first payment applies to an Other Benefit Type Code to report the first payment of medical, penalty, attorney fees, or funeral, the Other Benefits segment of the transaction is populated as well as the Payments segment using the same Other Benefit Type Code. e. An Other Benefit Type Code cannot be required with spaces or zeros in the corresponding Other Benefit Type Amount Paid. Data may be present in this segment on SROI 04 denials, but the jurisdiction may not require it or reject it if present.</div> <div>D. PAYMENTS SEGMENT: a. Number of occurrences cannot exceed 5 and must equal the Number of Payments (DN0283). b. The applicable Payment Reason Code (DN0222) must be included when this segment is present in the transaction. c. If more than one check is issued for the same Payment Reason Code, the same Payment Reason Code would be populated in multiple Payments segments, but grouped together in the Benefits segment. If the maximum 5 Payments segments are sent reflecting 5 different Payees for the same Payment Reason Code, a jurisdiction cannot return an error (IE or TR) strictly because the sum total of all Payment Amounts is less than the Benefit Type Amount Paid in the Benefits Segment with the same corresponding Benefit Type Code.</div>	Cheryl																																	
6.27	Data Dictionary	Denial Reason Narrative	<div>Format should be 500 A/N (up to 10 occurrences of 50) and add revision date (see below)</div> <div>DENIAL REASON NARRATIVE – DN0197</div> <div>Definition: A description identifying reasons for denying a claim in full or in part. The narrative may be used to present denial reasons not identified by code(s) or to provide a factual basis supporting and information for the denial reason(s) identified by code(s). If both code and text are required, the narrative will contain only reasons in excess of the five codes, as text, and/or supporting information for any reasons submitted. Narrative reason will not include code values. The narrative will not be required to be a text equivalent of the denial reason codes. The narrative description will not invalidate a denial reason code.</div> <div>Orig/Rev: 07/01/97, 11/30/98, 05/08/02, 03/1/05, 11/04/05, 9/9/09, 5/16/13, 8/15/17</div> <div>Record: R21, R22</div> <div>Format: 500 A/N (up to 10 occurrences of 50)</div> <div>DP Rule: This is only applicable on MTC 04, PD (or its corresponding CO), 02, or UR. A FROI or SROI MTC 02 changing the denial reason narrative will only update the denial reason narrative on the most recently accepted denial transaction, regardless of whether the most recent denial reported was a FROI or a SROI transaction. See Variable Segment Population Rules for Denial Reason Narratives Segment in Section 4 for further explanation.</div>	Cheryl
