Acknowledgment Scenario #19: Policy Cancellation Errors

An Insured Record (PC1) is submitted for a cancellation by insurer transaction with a missing Employer Notification Date (DN0331). There are no errors found on the Insured Record (PC1). The Employer Record (PC2) has an invalid Employer FEIN, which is mandatory in the specific jurisdiction. The Employer FEIN (DN0016) on the Employer Record (PC2) contains all the same digits, i.e. 444444444.

Both <u>T</u>the Insured Record (PC1) and the Employer Record (PC2) are is rejected because the Employer Notification Date (DN0331) from the Employer Record (PC2) is required to process the Cancellation.

The invalid Employer Record (PC2) Acknowledgment detail is populated with the invalid Employer FEIN (DN0016) in Element Number (DN0115) and All Digits Cannot Be the Same (EN040) in Element Error Number (DN0116).

Note: When a policy is established with a single insured record only, the jurisdiction should not attempt to match and edit an employer record to that policy that contains only an insured record.
