

Issue Resolution Request

IRR: POC932

Received Date: 8/18/2022

Priority: Med

Status: Pending Resolution

Requestor Name: Amy Royce

Phone Number:

Email:

Business Requirement / Issue: What is the business requirement / issue? Cite any applicable statute/rules, and attach a copy, if desired.

IAIABC Error Messages do not provide enough information (are not descriptive) for carriers to understand why a transaction rejected – for example, Invalid Event Sequence, Corresponding Report/Data not found, Must be valid Content.

1. Is the information currently being collected at this time by the submitter? If yes, detail current method of collecting the information. No

2.1 and 3.0 POC format acknowledgement process with current error messages

2. If the information is not currently being collected, what timeline does the submitter expect or require for implementation of the proposed change?

Ask POC jurisdictions to complete the new section of the trading partner profile edit matrix within the next 3 months. POC Committee will create an all state reference document to post when all state feedback is received.

3. What other methods of collection or reporting, if any, have been considered?

Requester's Proposed Solution (optional):

IAIABC to add existing POC DN DN0291 Element Error Text to the Edit Matrix-Population Restrictions Table to allow the jurisdiction to communicate the details of the population restriction edit on the tables.
