

## IRR POC935

Final Proposed solution – Add the following examples on when to report the IAIABC triplicate codes 00/10/01, 00/10/80, and 00/10/86 to the POC Implementation Guide.

For the purposes of these scenarios, we are using the state of Michigan – but these scenarios can be used for any jurisdiction that accepts No Physical Locations within the Jurisdiction.

### Legend for WCPOLS reporting:

NLCI – Name Link Counter Identifier

NLI – Name Link Identifier

CSN – Continuation Sequence Number

SCL – State Code Link

ATC – Address Type Code

### Legend for IAIABC reporting:

PC1 – Insured Record

PC2 – Employer Record

00/10/01 – New Policy with Insured and Employers Locations within the Jurisdiction

00/10/80 – New Policy where Insured has No Physical Locations within the Jurisdiction

00/10/86 – New Policy with Employers with No Physical Locations within the Jurisdiction, but Operating within the Jurisdiction

### Scenario 1:

- Primary insured mailing address is an in-state Michigan physical location.
- The policy also covers a Location of Operation in the state of Michigan.

### WCPOLS Reporting:

Name Record:

NLCI	NLI	CSN	Name	FEIN
00	001	001	Primary1	123123123

Address Records:

NLCI	NLI	ATC	SCL	Address
00	001	1	21	In St Mailing Address1
00	001	2	21	Location of Operations1

### IAIABC Transaction created from WCPOLS reporting:

Record Type	Triplicate Code	Name	FEIN	Address
PC1	00/10/01	Primary1	123123123	In St Mailing Address1
PC2		Primary1	123123123	In St Mailing Address1
PC2		Primary1	123123123	Location of Operations1

**Note:** When the mailing address is in the state, it is also considered an employer location, so the PC2 record is generated.

**Scenario 2:**

- Primary Insured Mailing Address is an out of state address (not in Michigan)
- No location of operations in the state

**WCPOLS Reporting:**

## Name Record

NLCI	NLI	CSN	Name	FEIN
00	001	001	Primary2	456456456

## Address Records

NLCI	NLI	ATC	SCL	Address
00	001	1	XX**	Primary Mailing Address in state other than MI
00	001	6	21	*

\*No Address fields are populated with an Address Type 6 record in WCPOLS.

\*\* XX is the numeric equivalent of Mailing Address alpha state code excluding 21 (for MI) because Primary Insured Mailing Address is an out of state address (not in Michigan)

**IAIABC Transaction created from WCPOLS reporting:**

Record Type	Triplicate Code	Name	FEIN	Address
PC1	00/10/80	Primary2	456456456	Out of St Mailing Address2
PC1	00/10/86	Primary2	456456456	Out of St Mailing Address2
PC2		Primary2	456456456	*

The 00/10/86 transaction may not be submitted alone. A new policy must already exist in the jurisdiction database. This transaction must follow the submission of New Policy with Locations 00-10-01, or New Policy, No locations 00-10-80 in the file.

\*No Address fields are populated on the PC2 record for the 00/10/86.

### Scenario 3

- Mailing Address in the State
- Additional Insured with no in state address using no physical location address record

#### WCPOLS Reporting:

##### Name Records

NLCI	NLI	CSN	Name	FEIN
00	001	001	Primary3	789789789
00	002	001	Additional	654654654

##### Address Records

NLCI	NLI	ATC	SCL	Address
00	001	1	21	In St Mailing Address3
00	002	6	21	*

\*No Address fields are populated with an Address Type 6 record in WCPOLS.

#### IAIABC Transaction created from WCPOLS reporting:

Record Type	Triplicate Code	Name	FEIN	Address
PC1	00/10/01	Primary3	789789789	In St Mailing Address3
PC2		Primary3	789789789	In St Mailing Address3
PC1	00/10/86	Primary3	789789789	In St Mailing Address3
PC2		Additional	654654654	*

The 00/10/86 transaction may not be submitted alone. A new policy must already exist in the jurisdiction database. This transaction must follow the submission of New Policy with Locations 00-10-01, or New Policy, No locations 00-10-80 in the file.

\*No Address fields are populated on the PC2 record for the 00/10/86.
