**Business Requirement / Issue:** What is the business requirement / issue? Cite any applicable statute/rules, and attach a copy, if desired.

A couple of clerical issues have been found in the R3.1.7 publication that need to be documented and a correction placed in the supplement document.

1. Is the information currently being collected at this time by the submitter? If yes, detail current method of collecting the information. **No**

EDI

2. If the information is not currently being collected, what timeline does the submitter expect or require for implementation of the proposed change?

3. What other methods of collection or reporting, if any, have been considered?

**Requester's Proposed Solution (optional):**

Issue #1: DN444 Date Claim Administrator Decision to Fully Deny is a new data element that was added to the standard as part of the R3.1.7 guide.

In the FROI and SROI Flat File Record Layouts, the data element is present with the correct flat file positions, but is in the wrong place in the table.

Issue #2: The FROI and SROI layouts have lost their headers on each page. I think it may have been this way for a few publications.
